MONDAY, AUGUST 15, 1927

#### NOT JUST YET

Nottingham reports the development of a "che airplane only 18 feet across, small enough to housed on a city lot; while a Washington man

But on the same date comes a Chicago despatci stating that seven people were killed in crashe there in eight days; while London papers express alarm because there have been 39 casualties alread; this year among the members of the Royal Flyin Cores.

The privately-owned airplane will doubtless be common enough a decade or so hence. But while despatches continue to come aing such as those from Chicago and London, a hangar in the back yard will hardly become one of the recognized neresulties of the domestic establishment.

The airplane which won't crash is a thing of the future. Bike the unainkable ship; while the parkute that won't work when it is wanted to does seem to be tradically numerous. Those are two lines along which the inventors will have to exercise their talents before the atmosphere becomes unconstitution or considerable to considerable considerable to the considerable co

#### PLAY THE GAME

either day ran over the wheel of a boy's bleyele standing at the curio. Of course she got out and looked to see what damage had been done, and hustied up the conven and settled matter? She did nothlar of the kind. She get her cur out of that in the large of the kind. She get her cur out of that in the first the set of the convention of the conscious on the verandal of his home. When he cause to the last thing he could remember was that he was knotsed from his wheel by a truck. Every once in a white at it and our dreve knotsel

Somehology down on the street and locals it. These of the last of the street and locals in the street of the street and take all sorts of people to make up a world; but there are some sorts which could be street and the street and

#### AN IMPORTANT GAME

game, and in Edmonton holding a front place Dominion competitions, will note that the local teaof the Native Sons is to meet the Calgary leaders of Diamond Park on Wednesday.

The match is important because should Edmonton win, the winners of the eastern section will come here to play the Edmonton team for the right to go to New Westminster, where the final games for the Dominion Lacrosse Championship will be played on Sept. 8th and 19th.

running for the Canadian championship, and its recerd through the season is good enough to warrant
that it has a fair chance to win. This, therefore,
is the time when the train needs support, financial
and moral, and the backing of all who wish to see
the erest Canadian zame financia here.

For three years enthusiants have been trying to put lacroses in a 'prominent place on the program of Edmonton summer sports. It has been up-sulf work. But this summer the premoters have fell that their efforts have met with substantial success. The city learns had a full schedule to play, and Arman and the summer the probability of the program was played. Buys it on, have been taking any again was played, Buys too, have been taking a some 10 Edmonton to stay.

#### THE HOSPITAL QUESTION

The city commissioners recommend to council
"that a survey of the existing conditions as well a
probable immediate future hospital requirement

This as the result of the enquiry which the Commissioners were instructed to make into the amount of hospital accommodation now existing in the city. They find that the total capacity of all the hospitals in Edmonton is 925, and that this provides accommodation for city patients on a fairly liberal reals.

The commissioners point out that if all the heepitals were under one management, patient could be distributed among them, and there would probably be sufficient room without exceeding "or even taxing the present accommodation. But auction-ordination they consider to be "remote and

extremely doubtful."

Taking the several institutions individually, it found that all the hospitals save the Roya Ale andrs have now sufficient accommodation for rithe patients who seek admission to them. The cit owned hospital is the exception—to the extent the

ment there, with a bed capacity for only 250.

In that connection it is to be recalled that chi
patients are now housed in the basement of to
building, in quarters which are admitted to be u
autilable. There is therefore even wider dispart
isstreem the number of patients seeking freatme
and those, who can, be accommodated in autilo-

The commissioners flud the crux of the hospita prublem to be whether the city. "having aubstan tally drawided for the requirements of its ow citizens," is under an obligation to provide additions

But is there not a question which takes predence over even this one, and which may conce ably he more difficult to find an answer to? The c of its residents." And, the municipality having undertaken to provide hospital, facilities for its etilizens, is in our under chileation to provide room for so many of them as are reasonably likely to demand accommodation? This question would seem to precede that of the city's reasonablilities toward people code that of the city's reasonabilities toward people

If the proposed survey is to be worth while the scope will have to be as bread as the whole hospital prolices. It will have to determine how far the city is obligated to provide insential accommodation for the our residents: what measure of responsibility side may have to provide also for people living continuous may have to provide also for people living continuous the provided and the city; and upon what measure of assistance from the Provincial Government or other municipalities if would be justified in using the money of its fix-payers to provide hospital room for out-adders.

Those points decided, the amount of accommodation which must be supplied, and whether the present accommodation should be enlarged now, and to what extent, can be calculated with some degree of accuracy.

### Road's End

I never go to the end of the road
For my home is half-way down,
And its there I may slip from my heavy load
And he coult of the point lown.

For what may lie at the further end
I have no great wish to see
And what may be round the dusty bend
Has little of charm for me.

To the west with the setting sun And half-way down I am glad to stay When the busy day is done.

or nothing beyond my smiling door Could ever seem quite so fair. Fr worth my traveling one step more

### Railroad Traffic

At a meeting of railroad superintendents in Sai Fancisco. E. H., Harmon said: "White there ha been no definite move by any of the railroad system as yet to launch a supplementary air service, we are giving study to the subject and must be prepared to take the necessary step, as in the case of motor transportation."

impetus to air traffic.

Mr. Clapp. a financial writer, has called attention to the fact that railroads, being in the transportation business, are the logical concerns to take updates.

The railroads in many cases are fostering motor bus transportation, and there is no reason why they should not go into sir transportation. It is their business to carry passengers and they have abundant capital. Air transportation is coming. Mr. Ford has aiready directed his attention to

That's only one of the rewards you can expect from the careful investment of your savings.

Northwestern Utilities Limited paid dividends to 335 prior preferred shareholders in June this year, an extra income that in most cases meant extra comforts and extra enjoyments.

You, too, can be a shareholder in this ever-growing Public Utility. You are not called on to pay the full purchase price at once, but the payments are spread out over a period of 10 months which enables you to purchase shares on a střaight savings plan.

Dividend cheques are payable quarterly on the first day of March, June, September and December.

Present Value \$96.00 Present Yield 64%

There is a place for you among our shareholders.

## J. H. Mountifield Wins City Amateur Golf Championship

### DEFEATS HARVEY DAY IN FINE EXHIBITION; MRS. HENLEY WINS

Both Men's and Women's Finals Won by Two Up Splendid Display—Ding-Dong Battle Waged Throughout Competition.

In one of the closest and most exciting golf matches in the history of championship competition in this city, J. H. Mountiffeld on Sunday captured the men's amateur championship by defeating Harvey Day, in the final by two up in a 36-hole match. The ladies' championship by then to Mrs. J. R. Henley, who wo over Miss May Mountifield, in a brilliantly fought and thrilling match. The jump title passed into the hands of Eddic McFayden, who scored over W. Hoar, while the Boothe trophy, cablematic of team suprenacy, was your by the Municipal squad.
